

An independent education consultancy for schools and colleges

NCC for your school or college

We help schools and colleges apply for an NCC unit, prepare for the teacher's nomination, raise the unit, and get ready for each performance audit. We are an independent education consultancy: the institution signs, submits and faces every authority, and we prepare the ground so it can.

Start with a free 45-minute discovery call. You leave it with an honest verdict on which pathway fits your institution — including whether to wait.

Why now

The sanctioned cadet strength rose to 20 lakh in the 2024 expansion, and vacancies are releasing Directorate by Directorate over the next three to five years. Units are audited every two to three years, and seats churn from non-performing units to the waitlist. What an institution can control is being application-ready when the Directorate calls; the allotment decision is the NCC's alone.

Sources: [Defence Minister, March 2024](#) · [PIB, Self-Financing Scheme](#) · [The Tribune, 2021](#). Sanctioned strength is not enrolled strength.

Three pathways. We help you pick the right one.

- **Standard waitlist.** Apply on the prescribed 8-copy DGNCC form and await a vacancy. Typical wait: three to seven years. Suited to state-aided schools and colleges with a long horizon and trustee alignment.
- **Self-Financing Scheme.** Out-of-turn allotment under the Government approval of 22 July 2014. Needs 500+ students on roll; the institution bears training costs. Opened to colleges (Senior Division / Senior Wing, one company of about 150–160 cadets) in December 2019, and to schools (Junior Division / Junior Wing) in May 2021. Typical timeline: six to twelve months. The most commercially relevant route for private schools and colleges.
- **Expansion sanction.** Fresh sub-units allotted under the 2024 expansion. A complete application means you are ready when the Directorate calls; the decision is the NCC's.

A school or a college

- **Schools — Junior Division / Junior Wing.** School cadets work towards the NCC A certificate. The unit is led by a teacher commissioned as the Associate NCC Officer.
- **Colleges — Senior Division / Senior Wing.** College cadets work towards the B and C certificates. Under the Self-Financing Scheme a college is allotted one company of about 150–160 cadets. The unit is led by a lecturer commissioned as the Associate NCC Officer, through the same Selection Board and pre-commission course.

The friction we remove

- **A paper-heavy process.** An 8-copy paper packet with no public template library. We draft the full dossier — Para 16 endorsement, financial commitment letter, ground-and-facilities dossier, student-strength documentation — ready for signature.
- **The ANO Selection Board.** A three-tier panel: Battalion CO, Group Commander, Directorate. Your nominated teacher prepares for it; our self-paced material is sold to the teacher directly. The Board's decision is the NCC's alone.
- **PRCN at OTA.** A three-month residential course at OTA Kamptee or Gwalior, with a SHAPE-1 medical, BPET targets, weapon-handling theory and drill. Our self-paced material helps the teacher prepare.
- **The performance audit.** Every two to three years. The common failures are attendance gaps, certificate pass-rate dips and weak documentation. We provide quarterly readiness-review templates and a documentation gap report from records you share with us.
- **Cost transparency.** Self-financing institutions commit to bear training costs without a defensible budget. We produce the full cost-component model — uniforms, equipment, contingencies, camps, transport — that you present to your trustees.

Services across the lifecycle

Engage at any stage. Most institutions start at Stage 1 and follow through Stages 2 to 4. Stage 5 is the recurring annual line that keeps the unit through audits.

1 · Pre-application feasibility

Two to three weeks. Eligibility scorecard, pathway recommendation, wing recommendation given the Directorate's vacancy posture, and a go/no-go memo your management committee can decide on.

2 · Application package

Six to ten weeks of drafting. The full 8-copy DGNCC application and every supporting letter, plus the 90-day follow-up cadence kit. The institution signs, submits to its parent Battalion, and runs the follow-up.

3 · Preparing your teacher (ANO)

Your school or college nominates the teacher or lecturer, who prepares for the Selection Board and the pre-commission course. Self-paced preparation material is sold to the candidate directly, and templates for the nomination letters are in the school library. There is no fee for the institution.

4 · Unit raising and first-year operations

Twelve months. Cadet selection design, Form I enrolment templates including the parental-consent template for minors, a uniform and equipment vendor playbook, a training calendar aligned to Battalion cycles, the CATC nomination kit and a NIS/NER portal field guide. Portal submissions are made by your ANO; we provide the field guide.

5 · Compliance retainer (audit readiness)

An annual retainer. Quarterly readiness reviews you run against the audit parameters, a documentation gap report before each audit, an audit-day preparation kit, and one pre-audit review a year with our advisor playing the auditor. The institution faces the auditor.

Prices are fixed and shown to registered institution accounts after sign-in, with first-year bundles and quarterly instalments. GST is charged separately at the prevailing rate.

Cadet content licence

An annual institutional licence to the whole VSVSV cadet library: the A, B and C certificate syllabus across the Army, Naval, Air and RVC wings (the A certificate for a school unit; the B and C certificates for a college unit), practice tests, final assessments, the classroom, and private completion records. Cadets self-register and join your cohort with your invite code; for a cadet under 18, the parent registers first, which is the pattern Indian data-protection law requires. Alumni keep their access when the student leaves.

Lessons are served in English and Hindi, with more Indian languages machine-translated and labelled as such. The NCC certificate examination itself is conducted in English or Hindi. 16 NCC courses are published today, and 17 full lessons are free to read with no account.

Try it before you license it

We set up a time-boxed pilot cohort for a small group of your cadets and email you the join code. Separate from the advisory services, and free.

Screening applicants for limited NCC seats? Point them at our free entrance and screening mock — a 50-question timed practice across five sections. It is practice only: it is not an official selection test and grants no admission.

How an engagement actually runs

- 1 Discovery call, 45 minutes, free.** We qualify honestly against student strength, principal and trustee alignment, ANO availability and financial posture — including telling you when to wait.
- 2 Feasibility memo.** An eligibility scorecard, pathway recommendation, the fixed price that applies to you and a timeline, written for your management committee.
- 3 Application engagement.** We draft the packet and every supporting letter. You sign on your letterhead, submit to the Battalion, and follow up with the cadence kit.
- 4 Your teacher prepares.** The teacher or lecturer you nominate prepares for the Selection Board and PRCN, with our self-paced material if they choose. The nomination letters come from the school templates library.
- 5 Unit raising and audit defence.** The raising playbook and quarterly audit-readiness templates. The institution operationalises the unit, faces every audit and submits all data to the Directorate.

Who does what

We prepare: drafts, dossiers, templates, readiness reviews and the cost model.

You do: sign on your letterhead, submit to the authorities, attend the Board and the audit, operate the unit, and hold every relationship with the NCC.

What we are not

VSVSV is an independent education consultancy. We are not the National Cadet Corps, the Directorate General NCC, the Ministry of Defence or the Government of India, and we are not affiliated with, authorised by or endorsed by them. We do not act on an institution's behalf before any authority: every submission, follow-up and escalation is made by the institution. We do not guarantee allotment, selection, an audit outcome or any other result — those rest with the NCC.

Start the conversation

Book a discovery call, or write to us with your student strength and where you are in the process.
